

COMPUTER CENTRE & LANGUAGE LAB

The college has a fully functional ICT Resource Center with enough servers, and systems. Free internet browsing is encouraged and permitted for both teachers and students. Students can use the internet facilities from 10:00 am to 4:00 pm. On the campus, there is Wi-Fi provided for internet access. Hardware resources available at the Resource Center include projectors, printers, scanners, webcams for video conferences, speakers, headphones, U.P.S., and software CDs. The PCs have a variety of applications loaded, including Adobe Reader, Adobe Flash, Adobe Office, and Microsoft Office.

Modern software is installed on the PCs at the language lab. It also provides high-speed internet connectivity, which is quite beneficial for getting access to online learning materials. In addition, it offers the technologies and tools needed to produce and modify papers, finish homework, correspond via email, and perform data analysis.
